Hydrocarbon Processing®

1975 Index — Vol. 54

ABSORPTION
Solve more distillation problems (Part 3) ..... Jan. 101
Konox process removes H_2S ..... Feb. 93
Lube capacity in U.S. and Canada .... May 171
Desulfurize coal chemically ..... June 93
Solve more distillation problems (Part 4) ..... July 121
Mass transfer without mixing ..... Sept. 127
Problems facing the re-refiner ..... Sept. 145
Easy test for aromatic extraction ..... Sept. 160
Guide to predicting azeotropes ..... Nov. 241

ACETATES
Petrochemical Handbook ..... Nov. 97
New route to methyl methacrolate ..... Oct. 115

ACETYLENE
Petrochemical Handbook ..... Nov. 97

ACID GASES
Konox process removes H_2S ..... Feb. 93
Gas Processing Handbook ..... Apr. 79
Experience with an Austrian gas plant .. May 157
Role of hydrogen in Claus plants ..... May 177
Snamprogetti's newest urea process ..... July 102
Make hydrogen from hydrogen sulfide .. July 139
Corrosion-free gas sweetening ..... Aug. 113
Reuse sour water stripper bottoms .... Sept. 151

ACIDS/CARBOXYLIC
Petrochemical Handbook ..... Nov. 97

ACRYLICS
Washer-detergent-textile interactions ... Mar. 90
New route to methyl methacrylate ..... Oct. 115
Petrochemical Handbook ..... Nov. 97

ADDITIVES
Blend for lower pour point ..... Sept. 129
To remove TEL from hydrocarbons .... Oct. 119

ADSORPTION
Use flue-gas carbon for a profit ..... Feb. 19*
Save energy in adsorption ..... Feb. 97
Strategy of isomerization ..... Apr. 62-H
Gas Processing Handbook ..... Apr. 79
Recycle waste water by ion exchange .... Apr. 173
Remove and recover phenol ..... July 109
Beware of oxygen in gas drying ..... Sept. 203
To remove TEL from hydrocarbons .... Oct. 119

ALCOHOLS
France: HPI trends today ..... Jan. 36-G
Improve designs to save energy ..... Jan. 77
Gas Processing Handbook ..... Apr. 79
Oxo with rhodium catalysts ..... June 83
Petrochemicals in Brazil today ..... Sept. 60-FF
Stop waste: reuse process condensate .... Oct. 94
Petrochemical Handbook ..... Nov. 97

ALDEHYDES
Oxo with rhodium catalysts ..... June 83
Petrochemical Handbook ..... Nov. 97

ALKYLATION
NPRA '74 panel views processes ..... Mar. 127
Estimate alky yield and quality ..... Sept. 107

ALLOYS see METALS

AMINES
Gas Processing Handbook ..... Apr. 79
Corrosion-free gas sweetening ..... Aug. 113
Petrochemical Handbook ..... Nov. 97

AMINO ACIDS
Petrochemical Handbook ..... Nov. 97

AMMONIA
France: HPI trends today ..... Jan. 36-G
Snamprogetti's newest urea process ..... July 102
Petrochemicals in Brazil today ..... Sept. 60-FF
Reuse sour water stripper bottoms ..... Sept. 151
Stop waste: reuse process condensate .... Oct. 94
Petrochemical Handbook ..... Nov. 97

AMMONIUM NITRATE
Petrochemical Handbook ..... Nov. 97

ANALYZING
Improve machinery maintenance by lube oil analysis ..... Jan. 65
Predict flash points accurately ..... Jan. 95
Instrument questions answered ..... Feb. 77
A better way to sulfur analyses ..... Feb. 109
Special purpose gearing—how to avoid startup problems ..... Mar. 113
Control flue gas to . . . improve heater efficiency ..... May 165
Estimate alky yield and quality ..... Sept. 107
Less tests give blending octanes ..... Sept. 111
How feed affects a stabilizer ..... Sept. 115
Blend for lower pour point ..... Sept. 129
Blend oil for viscosity index ..... Sept. 137
Easy test for aromatic extraction ..... Sept. 160
Better fuel oil viscosity specs ..... Oct. 40-G

ANHYDRIDES
Recover MA from PA scrubber waste .. Aug. 107
Control PA emissions ..... Oct. 100
Petrochemical Handbook ..... Nov. 97

ANTIKNOCK RATING
Strategy of isomerization ..... Apr. 62-H
Gasoline pool: what it needs ..... May 69
The varieties of hydrocracking ..... Sept. 101
Estimate alky yield and quality ..... Sept. 107
Less tests give blending octanes ..... Sept. 111

AROMATICS
France: HPI trends today ..... Jan. 36-G
Caprolactam without ammonium sulfate . Jan: 83
How feedstocks affect plant design ..... July 97
Petrochemicals in Brazil today ..... Sept. 60-FF
Easy test for aromatic extraction ..... Sept. 160
Petrochemical Handbook ..... Nov. 97

AZEOTROPES
Guide to predicting azeotropes ..... Nov. 241

BENZENE see AROMATICS

BLENDING
Less tests give blending octanes ..... Sept. 111
Blending oil for viscosity index ..... Sept. 137

BOILING POINT
Estimate alky yield and quality ..... Sept. 107
Blend for lower pour point ..... Sept. 129

BOXSCORE
Section 2 ..... Feb., June, Oct.

BUTADIENE see OLEFINS

BUTENES see OLEFINS

CALCINING see COKING

CAPROLACTAM
Caprolactam without ammonium sulfate ..... Jan. 83
Petrochemical Handbook ..... Nov. 97

CARBON BLACK
Petrochemicals in Brazil today ..... Sept. 60-FF
Petrochemical Handbook ..... Nov. 97

CARBON DIOXIDE see ACID GASES

CATALYSTS
NPRA '74 panel views processes ..... Mar. 127
Oxo with rhodium catalysts ..... June 83
The varieties of hydrocracking ..... Sept. 101
New route to methyl methacrylate ..... Oct. 115
To remove TEL from hydrocarbons .... Oct. 119

CATALYTIC CRACKING
Ways to hydroprocess resids ..... May 74
How refineries are changing ..... May 105
What influences cat cracking ..... Sept. 93

CHLORINATION
Petrochemical Handbook ..... Nov. 97
Biocides give flexibility in water treatment ..... Nov. 283

CHLOROCARBONS
Petrochemical Handbook ..... Nov. 97

CHROMATOGRAPHY
Estimate alky yield and quality ..... Sept. 107

COAL
Any coal will work in low-Btu process . Feb. 15*
HPI at lowest ebb in Japan ..... Feb. 36-E
Gas Processing Handbook ..... Apr. 79
Liquid fuels from coal ..... May 119
Desulfurize coal chemically ..... June 93
Conservation—not conversation—is needed ..... July 73
Recover coalbed gas ..... July 86
Hydrothermal process produces clean fuel ..... July 115
What does a "clean" environment cost? ..... Oct. 73
Environmental factors in producing supplemental fuels ..... Oct. 78
Chemicals energy demand in 2000? .... Dec. 69

COATINGS
This method tests fire protective coatings ..... Jan. 121
How to use inorganic zinc primer over wet abrasive cleaned steel ..... May 95

CODES see STANDARDS

COKING
NPRA '74 panel views processes ..... Mar. 127
To coke, desulfurize and calcine (Part 1) ..... Apr. 145
Ways to hydroprocess resids ..... May 74
To coke, desulfurize and calcine (Part 2) ..... June 97

COMMUNICATION
Communicate for results ..... Jan. 111

COMPRESSORS
Repair techniques for machinery rotor and case damage ..... Jan. 60
Foundation repair techniques ..... Jan. 68
Sensors for machinery monitoring ..... Feb. 85
Special purpose gearing—how to avoid startup problems ..... Mar. 113
For easier compressor control ..... Apr. 153
Use dynamic absorbers to reduce vibration ..... Apr. 167
Recycle waste water by ion exchange ... Apr. 173
Which shaft coupling is best—lubricated or nonlubricated? ..... Apr. 191
Electric motor drivers for centrifugal compressors ..... May 133
Improve valve life in reciprocating compressors ..... May 143
How to troubleshoot large industrial fans ..... June 57
Turbocompressors for air and oxygen service ..... June 63
Centrifugal hypercompressors for ethylene service ..... June 67
How to prevent turboomachinery thrust failures ..... June 73
What is your E-Q? ..... July 88
How to control compressor noise ..... July 157
Trends in base load LNG plants ..... Dec. 87

COMPUTERS
Solve more distillation problems (Part 3) ..... Jan. 101
For easier compressor control ..... Apr. 153
System saves utility costs ..... July 91
Solve more distillation problems (Part 4) ..... July 121
To choose a minicomputer system ..... Aug. 87
Make equilibrium calculations by computer ..... Aug. 119
What influences cat cracking ..... Sept. 93
How feed affects a stabilizer ..... Sept. 115
Equations replace Gilliland plot ..... Sept. 120
Figure discount cash flow quickly ..... Dec. 99
Minicomputers take control ..... Dec. 76

CONSTRUCTION BOXSCORE
Section 2 ..... Feb., June, Oct.

CORRECTIONS
Consider all Claus reactions (Nov., 1974, Page 171) ..... Apr. 75
Improve machinery maintenance by lube oil analysis (Jan., 1975, Page 65) ..... Apr. 75
Cryogenic upgrading (Apr., 1975, Page 129) ..... May 67
High dewpoint depression dehydration (Apr., 1975, Page 82) ..... June 54
Cost to reduce gasoline sulfur (Oct., 1974, Page 105) ..... July 69
Experience with an Austrian gas plant (May, 1975, Page 157) ..... July 69
A practical vibration primer (Part 2) (June, 1975, Page 109) ..... Aug. 61
Plant operating data improves heat exchanger design (May, 1975, Page 151) ..... Aug. 61
How to fight natural gas fires (Aug., 1975, Page 76) ..... Oct. 71
Recycle wastewater by ion exchanger (Apr., 1975, Page 179) ..... Oct. 71
New approach to foundation design (Mar., 1975, Page 123) .. Nov. 95
Tall stack design simplified (Sept., 1975, Page 217) ..... Nov. 95
Inspect reformer tubes for repair (Sept., 1975, Page 174) ..... Nov. 95
Piping design method beats computer (Mar., 1967, Page 167) ..... Dec. 43
BWR applied to NG/SNG needs (Nov., 1974, Page 197) ..... Dec. 43

CORROSION
What causes equipment to fail? ..... Jan. 74
How to use inorganic zinc primer over wet abrasive cleaned steel ..... May 95
Corrosion veiws in '75 ..... May 147
Facts on water use in cooling towers ... July 147
Survey: air cooler corrosion ..... July 169
A new control approach to . . . air cooler corrosion ..... July 172
Corrosion-free gas sweetening ..... Aug. 113
Inspect reformer tubes for repair ..... Sept. 174
How to minimize stress cracking ..... Sept. 229

COSTS
Most economic expansion rate ..... Jan. 91
HPI at lowest ebb in Japan ..... Feb. 36-E
How united is Europe? ..... Mar. 52-H
Imprecise data impacts plant design and operation ..... Mar. 97
NPRA '74 panel views processes ..... Mar. 127
Strategy of isomerization ..... Apr. 62-H
Gas Processing Handbook ..... Apr. 79
To coke, desulfurize and calcine (Part 1) ..... Apr. 145
Recycle waste water by ion exchange .. Apr. 173
New route to acetic esters ..... Apr. 185
People factor in investments ..... Apr. 197
Gasoline pool: what it needs ..... May 69
Ways to hydroprocess resids ..... May 74
Crack vacuum gas oil for olefins ..... May 101
Is there an economy of size for tomorrow's refinery? ..... May 111
Liquid fuels from coal ..... May 119
How currency exchange affects investment ..... May 197
What does noise control cost? ..... May 234
Europe's petrochemical outlook ..... July 36-F
System saves utility costs ..... July 91
Two towers cheaper than one? ..... July 93
Remove and recover phenol ..... July 109
Must crude prices rise? ..... Aug. 60-FF
Recover MA from PA scrubber water ... Aug. 107
Corrosion-free gas sweetening ..... Aug. 113
Use "hot-side" precipitator with CO boiler waste heat recovery ..... Sept. 149
To optimize central terminals ..... Sept. 153
What does a "clean" environment cost? . Oct. 73
Ozone/UV process effective waterwaste treatment ..... Oct. 82
Stop waste: reuse process condensate ... Oct. 94
Which raw materials for petrochemicals? ..... Nov. 76-D
Minicomputers take control ..... Dec. 76
Figure discount cash flow quickly ..... Dec. 99

COUPLINGS
What causes wear in gear-type couplings? ..... Jan. 53
What shaft coupling is best—lubricated or nonlubricated? ..... Apr. 191

CRACKING/CHEMICAL
NPRA '74 panel views processes ..... Mar. 127
Ways to hydroprocess resids ..... May 74
Crack vacuum gas oil for olefins ..... May 101
How refineries are changing ..... May 105
How feedstocks effect plant design ..... July 97
Olefins production by gas oil cracking (Part 1) ..... Aug. 95
What influences cat cracking ..... Sept. 93
The varieties of hydrocracking ..... Sept. 101
Olefins production by gas oil cracking (Part 2A) ..... Sept. 164
Olefins production by gas oil cracking (Part 2B) ..... Dec. 111

CRESOLS see PHENOLS

CRUDE OILS
HPI at lowest ebb in Japan.....Feb. 36-E
Conservation—not conversation—
is needed .....July 73
How feedstocks effect plant design.....July 97
Must crude prices rise?.....Aug. 60-FF
To optimize central terminals.....Sept. 153
What does a "clean" environment cost?.Oct. 73
Environmental factors in producing
supplemental fuels .....Oct. 78
CRYOGENICS see REFRIGERATION
CYCLONES
Size cyclone diplegs better.....May 125
DEASPHALTING
Lube capacity in U.S. and Canada....May 171
DEHYDROGENATION
The varieties of hydrocracking.....Sept. 101
DESULFURIZATION
Use flue-gas carbon for a profit.....Feb. 19*
Konox process removes H_2S.....Feb. 93
Gas Processing Handbook .....Apr. 79
To coke, desulfurize and calcine
(Part 1) .....Apr. 145
Ways to hydroprocess resids.....May 74
How refineries are changing.....May 105
Role of hydrogen in Claus plants.....May 177
Desulfurize coal chemically .....June 93
To coke, desulfurize and calcine
(Part 2) .....June 97
Hydrothermal process produces
clean fuel .....July 115
Make hydrogen from hydrogen sulfide..July 139
DETERGENTS
Synthetic detergents—1975 .....Mar. 71
Synthetic detergents: basic supplies.....Mar. 74
Synthetic detergents: chemistry .....Mar. 79
Synthetic detergents: liquids .....Mar. 83
Phosphates: use in detergents.....Mar. 85
Synthetic detergents: specialties .....Mar. 88
DEWAXING
Lube capacity in U.S. and Canada....May 171
DISTILLATION
Solve more distillation problems
(Part 3) .....Jan. 101
Imprecise data impacts plant design
and operation .....Mar. 97
Gas Processing Handbook .....Apr. 79
Sour water stripper operations.....May 85
Two towers cheaper than one?.....July 93
Solve more distillation problems
(Part 4) .....July 121
Make equilibrium calculations
by computer .....Aug. 119
How feed affects a stabilizer.....Sept. 115
Equations replace Gilliland plot.....Sept. 120
When distillation can be unstable.....Sept. 123
Blend for lower pour point.....Sept. 129
Consider hydrorefining for lubes.....Sept. 139
Problems facing the re-refiner.....Sept. 145
Reuse sour water stripper bottoms....Sept. 151
Guide to predicting azeotropes.....Nov. 241
DRIVERS
Foundation repair techniques .....Jan. 68
DRYING
Save energy in adsorption.....Feb. 97
Gas Processing Handbook .....Apr. 79
Beware of oxygen in gas drying.....Sept. 203
ECONOMICS see COSTS
ELASTOMERS
Petrochemicals in Brazil today.....Sept. 60-FF
Petrochemical Handbook .....Nov. 97
ELECTRICAL EQUIPMENT
How to apply electric motors in
explosive atmospheres .....Feb. 101
Use dynamic absorbers to reduce
vibration .....Apr. 167
Which shaft coupling is best—
lubricated or nonlubricated?.....Apr. 191
Electric motor drivers for
centrifugal compressors .....May 133
Selecting large electric drivers for the
HPI .....Dec. 103
ELECTROLYSIS
Petrochemical Handbook .....Nov. 97
EMISSION see ENVIRONMENT
ENVIRONMENT
Use flue-gas carbon for a profit.....Feb. 19*
Pontoon system automated for
slop recovery .....Mar. 93
NPRA '74 panel views processes.....Mar. 127
Recycle waste water by ion exchange....Apr. 173
Gasoline pool: what it needs.....May 69
Use gravity belt filtration for sludge
disposal .....May 82
Sour water stripper operations.....May 85
Identify refinery odors.....May 97
How refineries are changing.....May 105
Desulfurize coal chemically .....June 93
Conservation—not conversation—
is needed .....July 73
Remove and recover phenol.....July 109
Hydrothermal process produces
clean fuel .....July 115
How to design activated sludge units...Aug. 99
Recover MA from PA scrubber water...Aug. 107
Problems facing the re-refiner.....Sept. 145
Reuse sour water stripper bottoms....Sept. 151
Reduce noise from pulsating combustion
in elevated flares .....Sept. 225
What does a "clean" environment cost?.Oct. 73
Environmental factors in producing
supplemental fuels .....Oct. 78
Ozone/UV process effective
wastewater treatment .....Oct. 82
Incinerate refinery waste in a fluid bed..Oct. 88
Stop waste: reuse process condensate...Oct. 94
Control PA emissions .....Oct. 100
Activated carbon improves
wastewater treatment .....Oct. 104
Biocides give flexibility in water
treatment .....Nov. 283
ESTERS
Washer-detergent-textile interactions ..Mar. 90
New route to acetic esters.....Apr. 185
Petrochemical Handbook .....Nov. 97
ETHYL BENZENE see AROMATICS
ETHYLENE see OLEFINS

Chemicals energy demand in 2000?....Dec. 69
LUBRICANTS
France: HPI trends today.....Jan. 36-G
What causes wear in gear-type
couplings? .....Jan. 53
Improve machinery maintenance by
lube oil analysis .....Jan. 65
Lube capacity in U.S. and Canada....May 171
Blending oil for viscosity index.....Sept. 137
Consider hydrorefining for lubes.....Sept. 139
Problems facing the re-refiner.....Sept. 145
Easy test for aromatic extraction.....Sept. 160
MAINTENANCE
Repair techniques for machinery
rotor and case damage.....Jan. 60
Improve turnaround manpower
planning .....Jan. 71
What causes equipment to fail?.....Jan. 74
How to define maintenance
work load for the HPI.....Apr. 187
Improve valve life in reciprocating
compressors .....May 143
MANAGEMENT
Communicate for results.....Jan. 111
Unify your labor strategy.....Jan. 113
Recruiting returns (Part 1).....Feb. 123
Don't overlook home study.....Feb. 139
Try training in vendor schools.....Feb. 143
How united 's Europe?.....Mar. 52-H
Recruiting returns (Part 2).....Mar. 143
Solve problems better this way.....Mar. 154
Consider people when you build.....Mar. 159
How to define maintenance
work load for the HPI.....Apr. 187
People factor in investments.....Apr. 197
Improve your standardization program..Apr. 209
Women in blue-collar jobs?.....May 207
Strive for managerial effectiveness.....May 219
The engineering career (Part 1).....May 221

U.K.'s prospects for contractor services work are good ..... June 40-AA
Labor strategy "game plan" follow-up ..... June 115
The engineering career (Part 2) ..... June 123
Know the real training needs ..... June 139
Europe's petrochemical outlook ..... July 36-F
Conservation—not conversation—is needed ..... July 73
Use design innovation to save energy ..... July 81
Recover coalbed gas ..... July 86
System saves utility costs ..... July 91
Go broke while showing a profit? ..... July 179
The engineering career (Part 3) ..... July 192
Training will be quicker and smarter ..... Aug. 125
How valuable is creativity? ..... Sept. 231
The vendor as a consultant ..... Sept. 245
Use time more effectively ..... Sept. 249
What does a "clean" environment cost? ..... Oct. 73
Ozone/UV process effective wastewater treatment ..... Oct. 82
Know the decision making process ..... Oct. 131
Co-ops develop human resources ..... Nov. 323
How to lose an NLRB election ..... Nov. 303
Decisions by panel consensus ..... Nov. 289
Biocides give flexibility in water treatment ..... Nov. 283
How to size up your company ..... Dec. 128
Get ahead in your career ..... Dec. 123
Will your plant burn tomorrow? ..... Dec. 145
Engineering employment trends ..... Dec. 133

METALS
Inspect reformer tubes for repair ..... Sept. 174
How to minimize stress cracking ..... Sept. 229

MIXING
Mass transfer without mixing ..... Sept. 127

MOLECULAR SIEVES
Strategy of isomerization ..... Apr. 62-H
Gas Processing Handbook ..... Apr. 79
To remove TEL from hydrocarbons ..... Oct. 119

MOTORS
How to apply electric motors in explosive atmospheres ..... Feb. 101
Use dynamic absorbers to reduce vibration ..... Apr. 167
Which shaft coupling is best—lubricated or nonlubricated? ..... Apr. 191
Electric motor drivers for centrifugal compressors ..... May 133
Selecting large electric drivers for the HPI ..... Dec. 103

NATURAL GASES
Save energy in adsorption ..... Feb. 97
Konox process removes H_2S ..... Feb. 93
Gas Processing Handbook ..... Apr. 79
LNG goes worldwide ..... Apr. 141
Experience with an Austrian gas plant ..... May 157
Solubility of hydrocarbons in cryogenic NGL and LNG ..... May 181
How LNG boils in soils ..... May 191
Recover coalbed gas ..... July 86
Beware of oxygen in gas drying ..... Sept. 203
What does a "clean" environment cost? ..... Oct. 73
Trends in base load LNG plants ..... Dec. 87
Chemicals energy demand in 2000? ..... Dec. 69
Improve hydrate predictions ..... Dec. 95

NITRIC ACID
Petrochemical Handbook ..... Nov. 97

NITRILES
Petrochemical Handbook ..... Nov. 97

NOISE
What does noise control cost? ..... May 234
How to control compressor noise ..... July 157
Reduce noise from pulsating combustion in elevated flares ..... Sept. 225

NYLONS
Washer-detergent-texile interactions ..... Mar. 90

ODORS
Identify refinery odors ..... May 97

OLEFINS
France: HPI trends today ..... Jan. 36-G
Why olefin specs have changed ..... Feb. 89
Washer-detergent-textile interactions ..... Mar. 90
New route to acetic esters ..... Apr. 185
Crack vacuum gas oil for olefins ..... May 101
How feedstocks effect plant design ..... July 97
Olefins production by gas oil cracking (Part 1) ..... Aug. 95
Olefins production by gas oil cracking (Part 2A) ..... Sept. 164
New route to methyl methacrylate ..... Oct. 115
Petrochemical Handbook ..... Nov. 97
Ethylene outlook in Western Europe ..... Dec. 36-E
Olefins production by gas oil cracking (Part 2B) ..... Dec. 111

OXIDATION
Inspect reformer tubes for repair ..... Sept. 174
Beware of oxygen in gas drying ..... Sept. 203
Ozone/UV process effective wastewater treatment ..... Oct. 82
New route to methyl methacrylate ..... Oct. 115

PARTIAL OXIDATION
Partial oxidation of residual fuels ..... May 115
Gas Processing Handbook ..... Apr. 79
Predict carbon formation for gas manufacture ..... July 130
Petrochemical Handbook ..... Nov. 97

PETROCHEMICAL HANDBOOK ..... Nov. 97

PHENOLS
Remove and recover phenol ..... July 109
Petrochemical Handbook ..... Nov. 97

PIPING
Survey: air cooler corrosion ..... July 169
A new control approach to . . . air cooler corrosion ..... July 172
Inspect reformer tubes for repair ..... Sept. 174
How to simplify fluid flow calculations ..... Sept. 197
Check pipe support orientation ..... Sept. 207

PLASTICIZERS
Petrochemical Handbook ..... Nov. 97

POLLUTION see ENVIRONMENT

POLYESTERS
Washer-detergent-textile interactions ..... Mar. 90
Petrochemical Handbook ..... Nov. 97

POLYISOPRENE see OLEFINS

POLYMERIZATION
Gasoline pool: what it needs ..... May 69
Petrochemicals in Brazil today ..... Sept. 60-FF
Petrochemical Handbook ..... Nov. 97

POLYOLEFINS see OLEFINS

POLYSTYRENE see STYRENE

POLYVINYL CHLORIDE see VINYL COMPOUNDS

PRECIPITATION
Use "hot-side" precipitator with CO boiler waste heat recovery ..... Sept. 149

PRESSURE VESSELS see VESSELS

PROPYLENE see OLEFINS

PROTEINS
European feed for SCP production ..... Sept. 169
Petrochemical Handbook ..... Nov. 97

PUMPS
Improve machinery maintenance by lube oil analysis ..... Jan. 65
Save energy with hydraulic power recovery turbines ..... Mar. 107
Use dynamic absorbers to reduce vibration ..... Apr. 167
Which shaft coupling is best—lubricated or nonlubricated? ..... Apr. 191
Use design innovation to save energy ..... July 81

REACTORS
Predict carbon formation for gas manufacture ..... July 130
Incinerate refinery waste in a fluid bed ..... Oct. 88

RECRUITING
Recruiting returns (Part 1) ..... Feb 123
Recruiting returns (Part 2) ..... Mar. 143

REFORMING
NPRA '74 panel views processes ..... Mar. 127
Gasoline pool: what it needs ..... May 69
How refineries are changing ..... May 105
Predict carbon formation for gas manufacture ..... July 130
Inspect reformer tubes for repair ..... Sept. 174
Stop waste: reuse process condensate ..... Oct. 94
Petrochemical Handbook ..... Nov. 97

REFRIGERATION
Gas Processing Handbook ..... Apr. 79
For easier compressor control ..... Apr. 153
Solubility of hydrocarbons in cryogenic NGL and LNG ..... May 181
Trends in base load LNG plants ..... Dec. 87

RESIDUES
A better way to sulfur analyses ..... Feb. 109
Ways to hydroprocess resids ..... May 74
Partial oxidation of residual fuels ..... May 115
Incinerate refinery waste in a fluid bed ..... Oct. 88

SAFETY
This method tests fire protective coatings ..... Jan. 121
Trends in HPI fire/safety training ..... Feb. 146
Trends in HPI fire/safety training (Part 2) ..... Mar. 169
The HPI looks at toxicity ..... Apr. 225
Identify refinery odors ..... May 97
Safety in refinery operations ..... May 107
Corrosion views in '75 ..... May 147
How LNG boils on soils ..... May 191
What does noise control cost? ..... May 234
Latest API/NFPA fire-loss report ..... June 149
Recover coalbed gas ..... July 86
What the best fire schools teach ..... July 202
Fire/safety information resources ..... Aug. 65
Use a safety audit program ..... Aug. 67
Train an effective fire brigade ..... Aug. 69
Fight tank fires, subsurface ..... Aug. 72
How to fight natural gas fires ..... Aug. 76
Control plant noise this way ..... Aug. 80
Reduce relief system costs ..... Aug. 83
How to protect air-cooled heat exchangers against overpressure ..... Aug. 103
Analyze losses by diagram ..... Sept. 253
Good records control accidents ..... Nov. 335
Will your plant burn tomorrow? ..... Dec. 145
How NIOSH handles quality control ..... Dec. 157

SETTLERS
Mass transfer without mixing ..... Sept. 127

SHALE OILS
Environmental factors in producing supplemental fuels ..... Oct. 78

SOLVENT REFINING
Easy test for aromatic extraction ..... Sept. 160

SPECIFICATIONS
Why olefin specs have changed ..... Feb. 89
Improve your standardization program ..... Apr. 209
To coke, desulfurize and calcine (Part 2) ..... June 97
To choose a minicomputer system ..... Aug. 87
Blend for lower pour point ..... Sept. 129
Better fuel oil viscosity specs ..... Oct. 40-G

STACKS
Tall stack design simplified ..... Sept. 217
Reduce noise from pulsating combustion in elevated flares ..... Sept. 225

STANDARDS
Improve your standardization program ..... Apr. 209
Highlights of revised API tank standards ..... May 89
Code section update: nondestructive tests ..... Dec. 56
Recent developments in the ASME pressure vessel code ..... Dec. 53
Guide to ASME pressure vessel code ..... Dec. 60
Guide to Dutch vessel code ..... Dec. 61
Guide to German pressure vessel code ..... Dec. 62
Guide to Italian pressure vessel standard ..... Dec. 63
Guide to Swedish pressure vessel code ..... Dec. 64
Guide to Japanese pressure vessel code ..... Dec. 65
Guide to Japanese standard pressure vessel construction ..... Dec. 67
Guide to Japanese high pressure gas control law ..... Dec. 66

STEELS see METALS

STORAGE see VESSELS

STYRENE
Petrochemical Handbook ..... Nov. 97

SUBSTITUTE NATURAL GAS (SNG)
